

# 3C & SDN Starter Package

## Combining SDN & UC Applications

### Solution Advantages

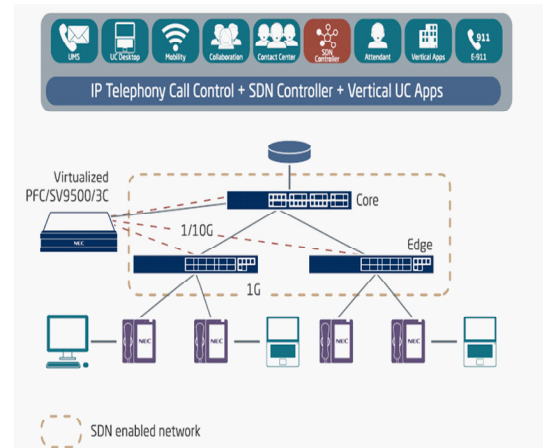

Delivers simplified provisioning and flexible, on-demand allocation of critical network resources.

### Priority Communications

Dynamic allocation of resources for priority communications achieved by centralizing control while establishing end-to-end SDN traffic prioritization.

### High Availability

Powerful disaster recovery for UC environments through resource reallocation in a disaster recovery state.

## Platinum Package 3C/SDN 100-User (Softphones & Hard Phones)

**Price: \$42,850 MSRP**

### 3C System (100 Users)

- 100 SML licenses for UC/softphones
